Grown in Turner and Vogelsang vineyards on loamy sands with grey and pink quartz.

### ***A class of its own***

International boundaries are not the „ultima ratio“. Our Furmint proves this by combining cold continental climate, Mediterranean warmth and Pannonian fire. Lime-tree blossom and chamomile, hay flowers and herbs, sponge cake and brioche – lively on the palate, luscious and crisp, very well built body. Tradition on one side and innovation on the other, this is what shapes the brilliant frontier commuter. With the slogan “Indulgence is always a game of contradiction – and this is why it is considered the most vivid feeling”. (Gero von Randow). Cheers, prost or Egészségedre – in particular in combination with a roasted fogosch / pikeperch!
