Sweetness & acidity – a harmonious couple

The hike through the vineyards was lovely, relaxing and inspiring. I brought a beautiful bouquet of meadow flowers with me – its perfume is outrageous with the Spätlese. Linden blossoms, chamomille and herbs with a little honey to make the sweetness quiet and round with fine acidity in balance – a harmonious pair!

Late harvest grapes from the Greiner and Satz locations. These two vineyards have always counted among the best sweet wine sites of Central Europe. The closeness of the lake makes the difference. And the soil like a colorful rag rug, a conglomerate of the most diverse formations.

Smoked fish with cream cheese horseradish sauce, hearty bean strudel and for dessert fried apple rings with lemon sugar.

Sweet wines like this are fun as „soloists.“, but entice even more to get in the kitchen and cook something to go with it. Something uncomplicated, but with style.
